

CRITICAL PROCESS SOLUTIONS

QUALITY POLICY

At Saint-Gobain, we provide polymer fluid management solutions engineered to deliver purity, reliability, and compliance in the most demanding applications. That is why...

- We consider quality, compliance, employee health and safety as indispensable core values in providing safe, compliant, effective, and innovative products and services to meet and exceed our customers' needs.
- We operate within the ISO quality management system requirements and meet regulatory requirements applicable to the markets and regions we serve.
- Our globally harmonized quality management system employs a risk- and science-based approach feeding into a continuous improvement culture that is enabled by our World Class Manufacturing (WCM) program.

This Quality Policy applies to all products, quality systems, and compliance-related business processes of the following Saint-Gobain businesses: Bioprocess Solutions, Medical, Industrial & Consumer Solutions, and Electronics.
